Included*

(*Not guaranteed. Dependent on weather, timings, local restrictions & Venue rules)

Travel

Some UK weddings may require a hotel or B&B stay the night before depending on location.

Please check with me if accommodation / travel costs are required for your UK wedding.

For work outside of the UK I simply ask that you cover the costs for accommodation close to the event, and all travel costs i.e. flights, car hire, uber etc.

On The Day

I will start my day at Bridal or Groom preparations, arriving 2 hours prior to the ceremony start time.

I will capture your morning as it unfolds naturally, with my only direction being that those final touches are made wherever there is natural window light. This also goes for dress reveals and 'First Looks'.

Your ceremony is captured from 2 angles with 2 cameras, as are your speeches, and this is the only time throughout the day where your guests might realise I'm actually the Videographer.

Most of the time the wedding guests aren't even aware the day has been filmed, as I am often mistaken for another Photographer. This is how I am able to capture such natural reactions and moments. Nobody acts natural if they know they're being recorded.

I use very small, unobstructive microphones to capture audio during the ceremony and speeches. These will be clipped on to anyone who might be speaking during your day, and are wireless and easy to attach and detach.

During the drinks reception and evening reception I am simply blending in with your guests, with a single camera, capturing all those natural and unplanned moments that are unique to your wedding.

When your Photographer takes you off for your couple's portraits I will also come along, but never interfere with their work and directions. I will simply capture those in between moments.

I will film your first dance, and as much of the dancefloor madness as possible, before saying my farewells and finishing the day at 9pm.

After The Day

The finished films are delivered to you online,
with your own private gallery page.

From this gallery you are able to download
all the video files for yourselves as many
times as you want and to whatever device
you wish.

Your Teaser will be delivered to you
first, with the remaining films
being delivered around a week later.

Turnaround times can vary depending on
the season, but I always aim to have your
films with you within 3 months.

Booking

A £450 Booking Fee payment is required to secure your date on my calendar.

This charge is deducted from the total package price.

Until the Booking Fee is transferred the date is available to any other couple who pays it first.
